The first couple of issues' worth of content in the book continue the proud tradition of the comic's witty humor mixed with its good vs. evil action that we all love. The second half of the book is really intense, though, as it builds towards the epic 50th issue of the series. All in all, there was nothing about the product that I didn't already know, both because I am a long time fan of the series and also because

Some of the most exciting stories in the Sonic-verse occurred on the epic road to issue #50: The controversial and classic "Endgame Saga"! In the latest volume of Sonic Archives, the series which reprints classic stories from the Sonic the Hedgehog comic book, fans can relive (or experience for the very first time) the tumultuous issues #45-48. With the King rescued but in dire condition, Knuckles must finish his quest to find the mystical Sword of Acorns, the only object capable of healing the King, before time runs out! With the recent betrayal by Sleuth Dawg, suspicion runs high in Knothole as yet another traitor to the Freedom Fighters strikes a deal with Robotnik! Hold onto your childog as Sonic Archives delivers an exhilarating series of tales (no, tales, not Tails!) that will leave your heart racing at Super Sonic speed!
