Daniel Johnston : Space Ducks: An Infinite Comic Book of Musical Greatness before purchasing it in order to gage whether or not it would be worth my time, and all praised Space Ducks: An Infinite Comic Book of Musical Greatness:

If you too fall into this category don't waste another second reading this, just click "add to cart". The book is more or less a collection of related art put together to form a loose story of sorts. I was hoping for a more straightforward tale w/ DJ doing his best Jack

Kirby/Stan Lee, but in the end I was quite pleased w/ what was produced. We get some great artwork, lots of laughs and plenty of Space Ducks firing some of the best weapons ever drawn at agents of Satan. As a fan you can't go wrong with this beautiful oversized hardcover. Hopefully more books from Daniel will be on the way as I would love to see something featuring Joe the Boxer or Vile Corrupt. While I write this I am reminded of how rare it is for an artist to honestly touch me emotionally, help me through a rough patch or put a genuine smile on my face...Daniel is certainly among the few and as a result my review is 100% biased...I will buy anything he puts out, but I imagine most of his fans feel the same way.0 of 0 people found the following review helpful. Brilliant A Must for any Daniel Johnston FanBy P. AntwerpBought this for my son's 44th BD, who is a Daniel Johnston fan. Read it first and loved it. You could spend all day just studying the artwork alone.0 of 0 people found the following review helpful. Not for Children or people who aren't fans of Daniel JohnstonBy PeaceBoneFishIf you are a fan of all things Daniel Johnston, by all means order this now and proudly display it on your shelf, perhaps make an alter. Space Ducks is the mind of Daniel, and by now means is this story coherent or linear. If your child saw this book, do not buy it as it contains some material not suitable for children.

The title says it all folk music giant Daniel Johnston brings his unfiltered creative energy and life-long love of the form to his first comic book, an infinite journey into musical and comic-book greatness.SPACEDUCKS: AN INFINITE COMIC BOOK OF MUSICAL GREATNESS is a visceral, engaging work of art by celebrated singer/songwriter Daniel Johnston. The book combines the unique and brilliant characters, images and words of Daniel Johnston along with Daniel's amazing music, and the musical and artistic contributions of fans, to create a one-of-a-kind interactive comic book experience. This project combines Daniels music and art to create a must-see experience for art, music, and comic fans everywhere.

About the AuthorDaniel Johnston has spent the last 20 or so years exposing his heartrending tales of unrequited love, cosmic mishaps, and existential torment to an ever-growing international cult audience. Initiates, including a healthy number of discerning musicians and critics, have hailed him as an American original in the style of bluesman Robert Johnson and country legend Hank Williams. His artwork has been exhibited on both sides of the Atlantic, and in 2006 a documentary on his life won acclaim and awards at the Sundance Film Festival.
