Gaylord Dubois : Space Family Robinson Archives Volume 3 before purchasing it in order to gage whether or not it would be worth my time, and all praised Space Family Robinson Archives Volume 3:

Loved the stories... the binding not so much By Wallace Harrington Like many, seeing these Dark Horse reprints is like rediscovering your youth; a time when you moved from comics to cars to girls and mothers threw away your prized comic collections the second you left for college. I have really liked having all of these stories in one volume. They are printed clearer with better color and on far better paper than the original comics and are a joy to read. It is certainly easier (and probably cheaper) to buy this one book with

eight complete issues than trying to track the comics down on eBay or at comic stores (which are slowly going the way of the dinosaur). The fact is, I probably would not have bothered to do that had I not seen this series and that would have been a mistake. I remember reading these comics up to the middle of the second collected volume so this group of stories is all new to me without this series I would never have read them. My major criticism of Volume 3 is the binding. After one reading, my copy is already loose (especially the front quarter of the book) and I fear some pages may come free. I praise the overall production values of color and paper, but considering that this book lists for almost \$50 (not the price) I would have expected a better binding that would survive more than one reading. A minor criticism has been the choices of people to write the introductions. By and large, they have not been very well done nor informative... but you can easily skip them and go straight to the stories. 0 of 0 people found the following review helpful. Five Stars By Fabio Tarantino Good for collectables..great to remember past times! 0 of 0 people found the following review helpful. Five Stars By Leonard S. Exactly as described! Would buy again!

Between the fourteen-legged metal eaters, a prison break of shape-shifting Dreepahrs, and flying manta ray like creatures, life is never dull for America's first outer-space family! But while the lost Robinsons continue their interstellar journey to return home, swords and sorcery meet science fiction as the familial explorers team up with medieval knights and return to Earth in the twelfth century!
