Brian Holguin : Spawn Godslayer Volume 1 before purchasing it in order to gage whether or not it would be worth my time, and all praised Spawn Godslayer Volume 1:

0 of 0 people found the following review helpful. ... 5 stars as long as the item is in great condition or the condition expected anyway and as long ...By Jacob Le DouxI give 5 stars as long as the item is in great condition or the condition expected anyway and as long as it shows up like it should. I'd buy again.1 of 1 people found the following review helpful. OK TAKE ON SPAWNBy fmwaalexSPAWN GODSLAYERIf you are a Spawn fan I am sure you

remember this special here that would lead to a short lived series. Here Spawn is set in a medieval world where dragons and gods roam alongside man. I remember when this was first released I was actually kinda into it. I have always loved the world Spawn lived in and who does not like medieval stories. So I was looking forward to this and I liked it, now after going back and reading it again how did it fair. Endra-La is a beautiful place where all who live there live in the comfort of the goddess Llyra and her protection. That is of course until a legendary figure appears on the horizon, until now he was just a myth. Who is he and what is he bringing to this land, simply, death. He is the Godslayer and he wants Llyra and all under her protection. But there is one there that may be the key to it all, not only for the people but for the Hell Spawn himself. When I first read this I liked it but it was far from great in my opinion. I liked the story and everything but something seemed off and it felt like something was missing. Even still I felt the need to go through some Spawn lately and I came across this one. After going back and rereading this it seems I enjoyed more than I remembered. The setting is excellent and the artwork matches that easily. The style of the story is fun and I liked the way it was told this time. This seemed more like an actual story then just a comic if you get what I am saying. It had that fairy tale feel to it and helped make it seem more majestic. That really fits with the medieval theme that the book has. Written by Brian Holguin I have to say that this has a nice feel to it, easy to read but doesn't tell you everything you would need to know. Of course this would be turned into a series and that would later add to it. The style and images here were given to us by Jay Anacleto, Lan Medina, and Brian Haberlin and over all they did a really good job. This was an interesting take on this character so while it is short everything works out well. Now this is not a perfect comic and I can see where some people would not be into very much. Still there is an audience out there for this kind of story and comic. If you are a Spawn fan I would say check it out. It was a fresh take on the character that grew on me over time. Any comic fan out there may have a good time with this as well so if you come across it for a low price pick it up. 2 of 3 people found the following review helpful. Don't let the cover fool you. By Antonio Luna Though the concept of someone slaying a deity is empowering it seem poorly applied to this graphic novel. Pros-colored totally-good character design Cons-mediocre back story-cheesy ending-over dramatic atmosphere I'm a big fan of the original spawn with clown, malebolgia and the rest of the gang but this mesh of slop is nothing more than, a book using the spawn name as a selling vehicle. This novel is a morbid joke that blemishes the name of spawn. You truly get what you pay for 6.99.

story by BRIAN HOLGUIN art cover by JAY ANACLETO In a far distant age of a world not our own, the Old Gods are dying, slaughtered one by one by the dark blade of a mysterious, unearthly marauder... Under the protection of the goddess Llyra, the island kingdom of Endra-La, oldest and most storied of the Shrouded Isles, has avoided the cruel fate suffered by lesser kingdoms. But on the eve of a royal wedding, black sails are spotted on the horizon. Alarms are sounded and fire fills the skies. The Godslayer has come for them at last. SPAWN: GODSLAYER is a dramatic re-imagining of TODD McFARLANE's Spawn, a sweeping tale of fallen kingdoms, ancient curses and doomed love, sure to appeal to fans of epic fantasies like Elric, Conan and The Lord of the Rings.
