David Hine : Spawn Neo Noir before purchasing it in order to gage whether or not it would be worth my time, and all praised Spawn Neo Noir:

Poorly ManufacturedBy cobrastrikes2xok, so both times I bought this book the spine was bent in half and the cover was detached from the spine of the pages. when it was delivered to me on both occasions, the book was severely damaged like so and I can't help but feel like it was probably the manufacturer's fault. I expect a book, especially those of the spawn variety, to be well constructed so as to avoid this

issue but unfortunately that was not the case for neo noir, which is a shame because it is such a good read. If you should get past the condition, the reading in and of itself is fantastic.0 of 0 people found the following review helpful. ... by the library beware of the condition but anywho great bookBy johnIf u get books used by the library beware of the condition but anywho great book1 of 1 people found the following review helpful. stuffBy Jacob Le DouxI like the book and it was in fine condition.
