**David Hine : Spawn: New Flesh** before purchasing it in order to gage whether or not it would be worth my time, and all praised Spawn: New Flesh:

1 of 1 people found the following review helpful. Spawn: Dead Fish CollectionBy Harold HoltIII try not to sound TOO disappointed here. After all, any storyline would seem like chopped liver coming in the wake of the phenomenal and earth-shattering Armageddon Collection. So David Hines four-issue compilation here, unfortunately, lost the rock/paper/scissors fight with the previous story arc.NEW FLESH picks up right after ARMAGEDDON, where we find Spawn still stewing in his dark alley of bugs and filth following the events and revelations of the formerly-

mentioned story arc. Twitch comes to see him about a series of bizarre and horrid murders, assaults, self-mutilations and suicides, all taking place within one apartment building. After convincing the reluctant anti-savior to get involved, Spawn learns that, despite his (once)-godly efforts, a couple of his vicious sparring partners, Zera and The Clown/Violator, managed to survive the end of the world. The realization that these entities are still around in some form is the only high mark of the book. These four tales each move like straight horror stories even more so than the average Spawn story. Having watched Spawns storyline rise to such a biblically apocalyptic level, these flyweight tales barely rate as an afterthought, but they are mythically significant in the context of continuing to chronicle and define Spawns eternal conflict with The Clown. Just as Batman has his Joker, and Superman has his Luthor, Al Simmons has his Violator. And thus continues the saga. This arc was not as interesting or as exciting as I hoped it would be, and I can't help but wonder where Spawns story could possibly go from here. If you are a fan of straight horror comics, you may find this interesting. If you were pleasantly bowled over during the ARMAGEDDON arc, you might find yourself reading this solely to get to the end just so you can start reading something else. If I could give this two and a half stars, I would. But since I'm forced to choose between two and three, I gotta go with TWO.0 of 0 people found the following review helpful. Five Stars By Lucas A Shoemaker Good

Spawn has recreated the world, but it's not exactly the way it's supposed to be. Everything old is new again! With bonus behind-the-scenes extras fans can see the making of Spawn from thumbnail to final color. And the eight-page Christmas Spawn story from the Image Holiday Special.
