Todd McFarlane, Brian Holguin : Spawn: Origins Volume 17 before purchasing it in order to gage whether or not it would be worth my time, and all praised Spawn: Origins Volume 17:

I bought them because I liked the idea, but not as much the follow through. Although the series continues, this volume is a good place to step out of the collection. A major storyline is wrapped up, and is the case with so many of the Spawn stories, I'm honestly not sure if

another one has begun, or if it is just a bunch of cool looking one shot comics. I'm satisfied with what I've seen, but will be moving out of this series.0 of 0 people found the following review helpful.
