FATTSThe art work is so great compared to so many other new modern crappy artist who pass off child like work as cutting edge. When it's just junk. Hers the best of all in a collection of stories by great art, colors, inker, stories That will have you wanting

more after every page. The cover is so much better than other company TPB's that it's in another world of it's own. It has raised up art work off the covers that should be followed by others, but wouldn't be because unlike IMAGE/McFarlane, they are too worried about profit margins not fans who love this medium!!! 0 of 0 people found the following review helpful. Five Stars By Ian Nascimento Love the art style. 0 of 0 people found the following review helpful. Oh Yeah By BassJas Great storytelling. Great art. Consistent with previous volumes of Spawn. Spawn was one of the most consistent comics in the industry. It might still be but I'm not familiar with anything past these Origins Collections.
