Jason Latour : Spider-Gwen Vol. 1: Greater Power before purchasing it in order to gage whether or not it would be worth my time, and all praised Spider-Gwen Vol. 1: Greater Power:

3 of 3 people found the following review helpful. Spider-Gwen has legsBy HannibelectroThe second volume shows that the alternate universe where Gwen Stacy becomes Spider-Woman is just as interesting and thick as the standard Marvel Universe we all know and love.Assuming you read vol 0: Most Wanted, you've already been introduced to the universe. Things continue to spiral for her in this story as she is not the same type of person as Peter Parker. I felt her

personality in how she handled situations or avoided them. She's a hero but she's far from perfect and she's making plenty of mistakes along the way. But the girl has personality and heart and I'd love to see where her further adventures take her. 1 of 1 people found the following review helpful. Pure Fun By Kindle Customer this isn't a really great story it's just a different view on what Spider-Man could have been. If you're a fan of the original and like spin-offs there of this is an enjoyable one. One of my favourite parts is the art work. There is just so much fun in the visuals that reminds me of a lot of old school Disney art work with some more modern elements as well as a water color feel to the art work as well. It all just comes together really well I loved this book. 0 of 0 people found the following review helpful. Good but not great! By CarlaTheStrange I had high hopes for this comic book as it has great reviews and it is recommended a lot. Well, I was disappointed! I didn't understand much because I haven't read Spider-Verse but I already knew that beforehand. With what I had a problem was that Gwen is so uninteresting as a character. She is very dull for a protagonist... I can feel her pain for Peter sometimes but that just it... As a reader, I can't feel empathy for her. I guess it's just the beginning or maybe I am wrong in my head... I hope in the next volume her character gets to shine! But I have to tell you I really enjoyed the appearance of Spider-Woman and all the other characters that we see in Spider-Man. Plus the art is fantastic! It has the potential to be a great comic if they pay attention to the main character and not so much its surrounding.

Gwen Stacy is back in the webs and has an all-new, all-different mystery to solve: the reappearance of the Lizard! The Spider-Woman of Earth-65 was convinced that the Lizard died in her arms along with Peter Parker. But a new reptilian rampage leaves her with doubts not only about Peter's life, but his death as well. Troubles begin to mount as the Osborns of Gwen's world make their debut, and she finds herself on S.H.I.E.L.D.'s most wanted list! Perhaps some wise words from a mentor figure could help - how about Jessica Drew, the Spider-Woman of Earth-616? What lessons about power and responsibility will Jess have to share, and what use will they be when Gwen battles the Goblins? COLLECTING: SPIDER-GWEN 1-6
