One of my favorite spidermans to read By joseph velez Spiderman 2099 is a great series, it is slightly more graphic visually but swears like a 5 year old with phrases such as "oh shock" which can be a little off putting. That being said i would highly recommend this book and this series. 0 of 1 people

Return to the world of 2099! Just as Alchemax prepare to power up their new floating city of Valhalla, an all-new Thor appears, determined to claim the city for his fellow Aesir. But is this a Thunder God worthy of the name? Judging by the way he's hitting on Miguel O'Hara's girlfriend, maybe not. It will take the combined efforts of Spider-Man 2099 and his future cohorts Doom, Punisher, Ravage and the X-Men to uncover the truth about these apparent Asgardians, before Thor brings the hammer down on the world of tomorrow! And even if Thor doesn't, Bloodsword will. Miguel might have to take refuge in cyberspace - even though that could spell the end of his secret identity!
