It was interesting to see Spider-Man in a darker path. The man is pissed that his family and friends are now targets after revealing his secret identity and his aunt is paying the price. Spidey is willing to cross the line in order to protect his family, even if he has to break a dozen laws to do so. 0 of 0 people found

This was an awesome comic book and I recommend it to those who like Miguel O'Hara/Spider-Man 2099 or Spider-Man of the Future. And after reading this comic book I decided that Miguel O'Hara is my favorite alternate version of Spider-Man who isn't Peter Parker.

Venture, the Specialist, the Vulture - the future is full of menaces, but none so vile as a corrupt government and the corporations behind it! A scary future needs a hero who's just as creepy - perhaps a wall-CRAWLER of some kind? See the world of tomorrow and the cast who inhabit it as the Spider-Man of 2099 battles evil in both high and low society in the 2099 imprint's flagship title, written by industry legend Peter David.
