Stan Lee : Spider-Man: Death of the Stacy's before purchasing it in order to gage whether or not it would be worth my time, and all praised Spider-Man: Death of the Stacy's:

6 of 7 people found the following review helpful. An Absolute ClassicBy Brandon J. SmithI'm a big fan of graphic novels, and I only occasionally read story arc collections. I usually come away disappointed, feeling like the writing is too pedestrian, and that I don't have enough background on the characters or a stake in their future. However, I like to experience the classics and get a good sense of comics history. Even if I don't love them (Death of Superman, X-Men:

Days of Future Past), I appreciate them in context. Spider-Man: Death of the Stacy's, however, I loved. The emotional resonance can still be felt, even with all that's happened for Spider-Man since this story originally came out. The art and writing is inspired, and there's a real sense of tragedy, of a past and a future that are forever colored by these events. I highly recommend this to anyone who is interested in the core comics stories, but also to people who appreciate a good read for any reason at all. 1 of 1 people found the following review helpful. He's not motivated by vengeance, patriotism or a stainless sense of morality. He's motivated by guilt, and it really shows here. By Oisn HuntUp until I bought this trade, I always thought Capt. Stacy's death wasn't all that important, and was mainly buying it for the (now classic) Death of Gwen Stacy arc. However, having read it, it has become apparent just how important it was. Not only was another father figure for Peter dying, but in true Spider-Man fashion, the blame fell on our poor webslinger, who now had to face crooked politicians, the chilling X-Man known as The Iceman, and even the love of his life: Gwen Stacy. Truly a challenging moment in Spidey's life, which could only be topped by what is widely considered to be the most important death in Peter's life, barring his Uncle Ben. From start to finish, this trade will deliver emotional blows that could take down the Hulk, as well as all the thrills and excitement of those (relatively) early days of the Spider-Man legend. 0 of 0 people found the following review helpful. One of the best Spider-Man stories ever. By Jedi Dropout Reading these comics gives me a new found appreciation of The Amazing Spider-Man 2 movie and the first Spider-Man. Such an amazing story and development.

The deaths that still shape the Spider-verse! During the early 1970s, a pair of plotlines changed comic-book mortality forever. Shock followed shock when Spider-Man lost a friend, a lover and an enemy in a dynamic drama that stunned readers as no comic deaths had before and few have since! COLLECTING: Amazing Spider-Man 88-92, 121-122
