Dan Slott : Spider-Man: Renew Your Vows before purchasing it in order to gage whether or not it would be worth my time, and all praised Spider-Man: Renew Your Vows:

3 of 3 people found the following review helpful. If you love the Peter / Mary Jane Romance/Marriage then this is ...By CustomerBeing a comic fan so many years all i can say is that this truly is the right image of peter Parker. I'll agree that in recent year I've been hating Slott's writing more and more.. But this comic is just.. Wow He really nailed it this time. In recent years I've found it hard to read Marvel comics in general. You know with all the changes of

characters, Lazy writing and just god awful stories.. But this is the first Marvel comic i bought in a long time, and all i can say is that its worth it. If you love the Peter / Mary Jane Romance/Marriage then this is the book for you. If you hate Omd or recent activity of Spider-Man trust me and give this one a shot. (Still Ongoing with new authors) 7 of 8 people found the following review helpful. A proper portayal of a character who has been tarnished by a bad decision 9 yrs ago. By badguy Well I'll start by saying I haven't been a fan of Spider-Man since the first Civil War was being released and there's been about an 11 yr gap where I stopped buying any of his books altogether. After Civil War, One More Day came and totally trashed Spider-Man I stopped reading for 9 yrs and its seems like his most current books are pretty lame too. With that said there have been some good stories that have been written between the years of crap and this is one of the books that got me interested in going back and investigating older stories stories in that gap of time where I wasnt reading. Even though this book is more of a slap in the face to the fans of the Mary Jane Peter Parker marriage it was still good and enjoyable since they've announced an ongoing Renew Your Vows series due to its success. I am excited to see how the new ongoing series by Gerry Conway turns out, REALLY, REALLY EXCITED! The story is set in an alternate dimension where super heroes are being harvested for their powers by Regent the bad guy who I assume was created for this story, not that it really matters he kind of sucks and is forgettable, I had to look up his name so I could put it in my review. Regent is like a leech he drains the powers from super people so he can use their powers for himself. Anyway this story is very much a Parker Family story that Spider-Man just happens to show up in. By Parker family I mean the 3 that are on the cover Pete, M,J., and their daughter Annie, either they're the only three that are left from their families or I just assumed that when reading the story. It starts out with a bit of action with Spidey and a group of remaining Avengers planning an attack on Regent, then Spider-Man learns of a prison break and rushes home without the avengers noticing he gone until they're ready to go off to battle. Once home he finds MJ and baby Annie being held captive and Spidey loses his composure and pummels the villian. Afterwards he goes into hiding for years by not being Spider-Man anymore to keep his family safe and living a normal life under Regent's rule, until the Parker luck strikes and Peter is forced to action revealing Spider-Man is still alive and he is #1 on Regent's list because of the abilities he has. Basically its a story of what the family will do to protect each other from harm and honestly its what the main version of Spider-Man has been missing for nearly a decade im not that interested in a rich Spider-Man who is a just a single Tony Stark/Bruce Wayne rip off who behaves like a total dink. Marvel needs to start letting their characters grow and move forward if they aren't ever going to reboot their series and have a natural progression of story so one day there can be a replacement to take a characters place if they should ever want to write about a new main character without some crappy big event that holds 0 importance whatsoever. 2 of 2 people found the following review helpful. Now if only they did the right thing and made ... By C. Fitzgerald Now if only they did the right thing and made the main points of this storyline carry over into the main Spiderman books during the next brand wide continuity reboot.

Not even The Amazing Spider-Man is safe from Secret Wars! In this new Marvel Universe, Peter Parker, Mary Jane Watson and their daughter Annie have to scrape by to make ends meet, but they have each other... However, who is Regent and what is his nefarious plan that has already claimed Daredevil and Moon Knight? It's a brand new world full of brand new challenges for Peter Parker, The Amazing Spider-Man!!! COLLECTING: Amazing Spider-Man: Renew Your Vows 1-5, Spider-Verse (2014) 2 (last story)
