Not quite as well written as last years Spidey storybook collection (white cover background) and seems to veer more into the cinematic universe and more modern style Spidey.0 of 0 people found the following review helpful. A favorite in our houseBy T. ScottMy son is 4 and is obsessed with superheroes right now. These stories are just the right length for him. Some of the concepts and vocabulary are challenging to him, but that is the joy of reading aloud to children. You get to increase their literacy skills, and they have no idea they are learning!0 of 0 people found the following review helpful. Great bookBy Gena from OregonGrandson loves this book, he absolutely LOVES super-hero's!!!

Featuring your favorite, friendly neighborhood Spider-Man, this storybook collection has been completely redesigned with an all new cover, gilded pages, completely new stories, and a classic new look with over 275 illustrations. From Peter's science fair at school to Spidey's fierce battle with Venom to his unexpected visit to the Wild West, these exciting, action-packed stories are the ideal length for reading aloud.
