This book pretty much collects all the symbiote stories leading up to and including the final confrontation with the symbiote before it bonds with Eddie Brock to become Venom. It's also worth noting that the art in both volumes are amazing. They didn't go crazy with lens flare or over shading. Just a nice transfer of the original

Spider-Man's greatest fashion disaster continues! With his symbiotic black costume safely removed and imprisoned for study, Spidey re-dons the classic red-and-blues to battle fearsome foes including Hobgoblin, Silvermane and the Kingpin! And when the Black Cat whips him up a homemade version of his ebony ensemble, Spidey can embrace a modern look that only looks killer. But while Peter thinks he's done with his rather clingy former suit, the sinister symbiote isn't finished with him.
