By RyanIt took me a while and cost me a bit, but I have secured Clone Saga books 1-5 and Ben Reilly Saga 1-6 and I must say that I couldn't be happier. I read this series every night before bed right now and have never enjoyed

comics more in my life (I am 29). I am just finishing the first book in the Ben Reilly Saga, which continues right where the Clone Saga leaves off. Book 4 of the Clone Saga is no different than book 1-3. There are moments that are more interesting than others, but it doesn't really affect the enjoyability when each book has so many single issue comics in it. So many people call this Saga one of the worst story arcs in Marvel history, and I could maybe see how they would feel that way if you had to wait over 2 years in order to read it all. But if you own this collection you can read it at whatever pace you want. I honestly feel that this changes the entire experience. I am excited every night to read this series, and I will be 100 times the Spider-Man fan by the time I am done. Warning though, when I purchased them these books were already no longer in print. While I was able to find some at sticker price, this particular issue cost me the most at \$130 or so CAN (after priority shipping from Cali). It was the last issue I needed, so I was willing to make the sacrifice. This series is the crown jewel of my soon to grow collection. **HIGHLY** recommended for Spider-Man fans / fans of extended story arcs. 0 of 0 people found the following review helpful.
