Dennis Hopeless, Jason Latour, Robert Thompson : Spider-Women (Spider-Woman) before purchasing it in order to gage whether or not it would be worth my time, and all praised Spider-Women (Spider-Woman):

This is a very dynamic and well thought out storyline. This comicbook is worthy buying. Now, some of you might think that because this story has a main cast of all women that this story is a feminist power trip. Far from it. This is comic storyline shows how to write a story about a diverse cast

of very strong independent women in a very entertaining way. Due to the events of the Spider-verse storyline, many of the "spiders" (spider-men and spider-women) now have devices that allow them to travel between various realities. And this is a key plot point of this story. I will not spoil this story. But, the action is solid. The plots are wonderful. The character interaction is great. With some phenomenal plot twists. The main characters in this story. Spider-Gwen (Gwen Stacy of Earth 65), Spider-Woman (Jessica Drew of Earth 616) and Silk (Cindy Moon of Earth 616) play off well against each other. And they do not exactly get along. But, they work well together. The villains introduced in this storyline are very well thought out, with those own motivations. And the readers can have sympathy and understand their motives. With some surprising plot twists from these villains. The villains in their abilities and intelligence, can rank up there with some of the finest members of Marvel's various rogues galleries. The one draw back to this collection is that this was a series of issues that span several issues and a number of artists. Most of the art is very good. But, some of the art is a little shake. Other than the art, this comicbook is worthy of anyone's collection. If you are a fan of Spider-Gwen, Silk, Spider-Woman, a fan of stories about people from parallel realities interacting with each other, or any combination of these four, the Spider-Women comicbook is a must have. You will not regret picking up and reading this comicbook.

Spider-Woman (Jessica Drew) Silk are trapped on Spider-Gwen's Earth must find a way to get back to Earth 616 (or Prime whatever they are calling it now) to stop the evil version of Cindy Moon. Great story art by a group of upcoming stars.

By Collector of Rare and Unique Items I was very excited with the idea and the cover looks great - when I started reading it the storyline is slow and weak. The potential was tremendous, the execution not so well. The art inside the book doesn't come close to the cover either, not complaining but it would be nice to get some consistency nowadays inside of selling books just on the covers.

SPIDER-GWEN, SPIDER-WOMAN and SILK come together for the Spider-Event of 2016! Jessica Drew, Spider-Woman, has decided to step-up her mentoring of the younger, less-experienced Gwen Stacy and Cindy Moon. But when the trio gets trapped in Gwen's Universe, at the hands of an alternate Cindy Moon and her sinister organization S.I.L.K., there's not time for any more practice. This action-packed story will change the heroic course for all three Spider-Women! COLLECTING: SILK 7-8, SPIDER-GWEN 7-8, SPIDER-WOMAN 6-7
