**Kenji Tsuruta, Toren Smith, Dana Lewis, Kenji Tsuruta, Dana Lewis, Toren Smith : Spirit of Wonder** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Spirit of Wonder:

1 of 1 people found the following review helpful. Beautiful artwork and delightful plots. By Michael Valdivielso China is a woman who runs a restaurant who has two boarders on the second floor of the building: Professor Breckenridge and his young assistant Jim Floyd. The Professor and Jim happen to be broke and can't pay the rent. Well, they're not really broke as much as they spend all their money on equipment. Realistic characters and twisted science mixed together. Very funny, very enjoyable. Kind of what H.G. Wells would of made if he had been a beer drinking Japanese manga artist. 6 of 6 people found the following review helpful. Fun and intuitive. By A Customer Miss China will steal your heart. Her daily trials between holding up her family store at 18 years age and trying to pull rent from her two well-meaning tenants put her through a variety of emotions. This was the first manga I've ever read, and I've re-read it over 5 times since I bought it last century (hehe!). Go buy it! You won't be disappointed, except that this is the only translated "Spirits" book from Tsuruta so far. 8 of 8 people found the following review helpful. One of the best Illustrators in comics today. By Josh Figueroa One of the best Illustrators around in comics, Kenji is an underrated artist in need of some much deserved attention. He could easily take on most comic artists of today and mop the floor with them. Beautiful, graceful, meticulous artwork + simple storytelling = a superb graphic novel of such high quality that is seldomly seen in comics today. With more published work, he can easily join the ranks of Herge, Uderzo, Eisner, etc... **BUY THIS ONE.**

China is a lovely young woman, the kind of beauty people write songs about or name stars after. She's as spectacular as Fourth-of-July fireworks and as striking as lightning, and Jim Floyd -- the technical assistant to the crazed Professor Breckenridge -- just got struck! In fact, he'd give China the moon if he could. Odd thing is, he can. So that's just what he intends to do. Spirit of Wonder is a delightfully touching tale by one of Japan's most respected manga masters.
