James Robinson : Squadron Supreme Vol. 2: Civil War II before purchasing it in order to gauge whether or not it would be worth my time, and all praised Squadron Supreme Vol. 2: Civil War II:

1 of 1 people found the following review helpful. A little lost By M. D. Wallace Like some parts, but seems to ramble without much cohesion, direction unsure. Not a fan of this version of some of the characters, like Nighthawk, still undecided on Spectrum. I hold out some hope that it will clear up. 0 of 0 people found the following review helpful. Impressive By Christopher Southworth James Robinson's run on the multiversally-displaced team continues to great

effect. A country seized by an extraterrestrial threat poses new dangers, and a new ally is revealed.

As the Squadron gets closer to the answer-who is the cabal of alien races on Earth and what threat do they pose to the planet? - things get personal for Doctor Spectrum as she confronts the man who helped destroy her Earth and save her life...BLACK BOLT! Also, the Squadron's Nighthawk vs. the Nighthawk of the Marvel Universe??COLLECTING:
SQUADRON SUPREME 6-9
