Len Wein : Star Trek: Gold Key Archives Volume 2 before purchasing it in order to gage whether or not it would be worth my time, and all praised Star Trek: Gold Key Archives Volume 2:

2 of 2 people found the following review helpful. Its really cool. Its when the comics start to be inline ...By BramIts really cool. Its when the comics start to be inline with the TV series..and Star Trek universe..I remeber them from reading them back when they were comics..4 of 5 people found the following review helpful. Thumbs up from biased, aging fanboyBy Anthony S.Some people don't care for these early Trek comics, but I love them. They seem to have

been made free from any editorial constraints from Roddenberry/Paramount, so there is a great freedom in the writing (that sometimes results in situations/dialogue that are inconsistent with the show). But these stories, like the Bantam novels, seem to have flown in under the radar because no one knew at the time that Star Trek would be such a hit. The stories are actually legitimate sci-fi -- not necessarily sophisticated, but interesting, and often more creative than other later Trek fiction. The covers from this period were photo collages at first, then painted. It is rare to see paintings in comics today. 0 of 0 people found the following review helpful. Live long, and etc. By big ed I intend to collect all the volumes in this series. I had most the original gold key comics, but needed money. I have the three original issues.

Boldly going... where it all started! Presenting the first comic book adventures of the U.S.S. Enterprise and her crew! Fully remastered with new colors, Volume 2 collects the Gold Key issues #712, including stories such as "The Voodoo Planet," "The Legacy of Lazarus," "The Brain Shocker," and more.
