Two Nerds

Talking received a free review copy of a portion of this comic in exchange for a fair and honest review. Manifest Destiny tells the tale of an encounter between the Klingons and the crew of the USS Enterprise from the JJ Abrams reboot. The story is standard Star Trek fare with some amazing artwork and some really cool nods to the film style of Mr Abrams. There's even a cool Klingon-language part to the story for those who are able to read Klingon...personally I only know a few words so that was lost on me. Overall this was an enjoyable comic and I will most definitely be buying the full book so I can see the rest of the story TNT Score 4/5
