For Hard Core Star Wars Fans...A Must ReadBy DeinonychusSure, it's a little pricy for 1/4 of another adaptation of the classic Star Wars, but it is different than most anything we have seen to this point. The manga art style is very well done, to a point where it puts the comics of this country to shame. Also there are a few surprises, such as a scene with Dewback mounted Stormtroopers and a certain Sandcrawler. If youre after something original story-wise this isnt it. However the almost word for word use of the script causes the John Williams score to play in the background of your thinking. Overall a beautifully illustrated volume. Worth it for

And I love the artwork in it. Although the book was in not very good condition and had minor water damage and a big crease on the back.0 of 0 people found the following review helpful. Four StarsBy Andrew from USANeat manga version of Star Wars. May not blow your mind away though.

It`s Star Wars: A New Hope like you`ve never seen it before! Luke, Leia, Han, Chewie, Obi-Wan, and Darth Vader all drawn MANGA style! Taken directly from George Lucas` script for Episode IV of Star Wars, this book is masterfully drawn by Hisao Tamaki. This is one Star Wars book you won`t want to miss!
