Xesh is badass and Daegan is a savage.0 of 0 people found the following review helpful. Little bit expensive but overall a great ebookBy ChristianZwickI was impressed with everything other than the price really. I thought for an ebook it could have been cheaper, but after talking with some friends, they confirmed that this is the standard price for ebooks like this. I've changed to ebooks quite recently since I don't like how much room my paper books take up in my bedroom. I started with the Star Wars books because they're my favorites by far. The story is beautiful as always.0 of 0 people found the following review helpful. Images or pages seem to be very blurry compared to the first book, great narrative and artBy CustomerI bought the first book in the series with a very positive impression, obviously decided to buy the second part. However, while the visual quality of the first book was very good this one seems blurry like if the resolution is a lot lower. The pages wouldn't even fill the whole screen of my tablet. The story is really good and the art is really good as always. Just this little turn off and I'm not even sure if it's just me with the problem.

In the era before the Old Republic and the discovery of hyperspace travel, the Je'daii - the progenitors of the Jedi Order - were the protectors and peacekeepers of the Tython system. When Xesh, a mysterious warrior from outside the system, becomes enthralled with the mad Je'daii Daegen Lok and his obsession with conquering known space, hunter teams are dispatched by the Je'daii to stop Lok and save the misguided Xesh. But they're not alone: Xesh's former masters, cannibal aliens steeped in the knowledge of the dark side, have sent their own hunter - with orders to kill!
