Charles Soule : Star Wars: Lando (Star Wars (Marvel)) before purchasing it in order to gage whether or not it would be worth my time, and all praised Star Wars: Lando (Star Wars (Marvel)):

I've read most of (still have Chewbacca, Vader Down, and Vader vol 2) the comics for the new Star Wars canon. Until now, Vader was my favorite, Lando has now surpassed Vader. The story is exciting, with a bit of danger and mystery. I wish we had more information on some of the objects that Lando found on the ship, but I appreciate that they leave

that mystery open. I went into this book not expecting much, and it came out as #1 in my collection so far! Great writing, great art, they even have the ignition sound of lightsabers in this book, which is something that, for some reason, the other comics ignore. Excellent all around! 0 of 0 people found the following review helpful. If you love Lando, then buy it!! By Reil was really surprised by this comic because so far the marvel-starwars canon universe hasn't been that special. Most stories lack depth and don't take risks as far as where a character can go which is not their fault since they can't contradict the movies. Starwars: Lando however brought interesting characters and gave the Lobot Lando relationship a lot of layers. I really felt that this was a true friendship and that alone was enough for me to love this comic. It stays very true to Lando's character in the movies and brings a deeper meaning to when they interact in episode 5. As far as negatives go, it's some minor things that happen to certain characters that felt too convenient in terms of storytelling. I'm not gonna go into spoilers because I do feel that if you love Lando in Empire and Return of the Jedi then it's a must read. 1 of 1 people found the following review helpful. There is some Soule in this book. By Ryan Read I have been a fan of Lando and of course Alex Maleev and Charles Soule and what a winning combination here. Taking place after A New Hope, we see the life of Lando Calrissian in a very entertaining and fun light. The use of Lobot and how Lando ended up on the wrong side of the Empire previously to Empire Strikes Back is well written. I highly recommend this book for any Star Wars Fan.

You know him...you love him...now, join him for his biggest caper as master of charm Lando Calrissian gets his very own book! Before he joined the rebellion, before he ran Cloud City, Lando made his way in the galaxy getting by on some swindles, some swagger, and a smile. Lobot at his side, Lando has a plan to steal a very valuable ship...but has he bitten off more than he can chew? Writer Charles Soule (DEATH OF WOLVERINE, INHUMAN, SHE-HULK) and artist Alex Maleev (DAREDEVIL, SPIDER-WOMAN, MOON KNIGHT) bring us the tale of a scoundrel in his natural element--trouble!
