John Ostrander : Star Wars: Legacy Volume 7 - Storms before purchasing it in order to gage whether or not it would be worth my time, and all praised Star Wars: Legacy Volume 7 - Storms:

0 of 0 people found the following review helpful. Ostrander continues to juggle plots and build a universeBy Kid KyotoJohn Ostrander's work in Grimjack, the Suicide Squad and the Spectre established his still with morally compromised heroes. He shows off this skill in his highly-successful Star Wars Legacy books. Set more than 100 years after Return of the Jedi, these books star Cade Skywalker, a drug-addicted bounty hunter and last of his line, as

he fends off the Jedi, the Loyalist Empire, the Sith Empire and other forces. But Ostrander has been careful to develop his supporting cast and the universe around them. After the events of the Vector cross-over, the Sith Empire is leaderless, Cade's lover Azlyn is mortally wounded and the galaxy hangs on the brink of all-out war. This volume begins with a guerilla war as the Sith try to exterminate the Mon Calamari. Then we check in on the remnants of the New Republic as they try to form an alliance with the Loyalist Empire against the Sith. Double and triple-crosses follow. Finally we return to Cade's story. The art by Jan Duursema is as strong as ever. My one complaint is that things are feeling a bit slow. Cade seems stuck in the same place he started and after 7 volumes I'd like to see more. But I'm still hooked and eager to see the next book. 13 of 13 people found the following review helpful. Jump from 5 to 7? Here's why By Mike S. This is another great job done by the Legacy people. Unfortunately, there is a break between Volume 5 and Volume 7. Do yourself a favor and read Star Wars Vector Volume 2 (specifically Chapters 3 4) before picking this volume up. The reason is that you'll miss out on a very important aspect of the story. Why the creators decided to throw fans a curveball, I'm not sure. I had to do some research as to why Volume 6 was missing and came up with the answer in the Dark Horse forums. For a more in depth timeline display, visit the Wookieepedia page here: [...]. About two-thirds of the way down, you see a detailed timeline. This series is definitely for those true fans who want to see great storylines with pretty decent art work. I'd recommend not giving it to children under 12, unless you've already exposed them to the dark side of the Star Wars world. If your kid is easily haunted by nightmares, it might not be a good idea. If your kid has a tough stomach, pass these on to them. 0 of 0 people found the following review helpful. great By Customersith character development shows how ruthless Darth Krayt and others are. great book

A shake-up in the Sith leadership has made the galaxy a worse place, not a better one. On the planet of Dac, the Mon Calamari are still feeling the wrath of Darth Krayt - their punishment for betraying the Sith Empire. Meanwhile, a victory has turned sour - and possibly deadly - for Cade Skywalker and his companions. And the Galactic Alliance comes closer to forming an alliance with deposed Emperor Roan Fel's forces against their mutual enemy. Now, if they can just agree on who that enemy is...
