All the characters are great and the development is strong. The art is also really really amazing.2 of 21 people found the following review helpful. Hard core fans only, others can skip itBy L. J. WebbThe story and art are boring. The outfits on every female character (including the main character's mom) and the weird Star Wars slang are very distracting. It's too hard to believe that the main character can swing between the light and dark sides so easily and frequently. The only good parts are in the ancient Jedi Temple and the handful of pages in which Obi Wan appear.

Head far into the future of long ago, in a series that explores the state of the galaxy more than 100 years after Star Wars: Episode VI Return of the Jedi. A new evil has arisen, shattering a resurgent Empire and seeking to put an end to the Jedi once and for all. The Sith Lord Darth Krayt sits on the throne. Only one hope remains - the last remaining heir to the Skywalker legacy. Cade may be strong in the Force but, years after a tragedy, he is a bounty hunter, working with Jariah Syn and Deliah Blue. When he reluctantly finds himself at the center of galactic turmoil, Cade may be forced to embrace his heritage. But will the path he embarks on be one of redemption, or damnation?COLLECTING: STAR WARS: LEGACY (2006) 0-19
