Tim Truman, Hayden Blackman, Ryder Windham, Jason Hall : Star Wars Omnibus: Menace Revealed before purchasing it in order to gauge whether or not it would be worth my time, and all praised Star Wars Omnibus: Menace Revealed:

14 of 14 people found the following review helpful. Enemies and Allies, seen and unseen By L. W. Swint "A long time ago in a galaxy far, far away..." As a long time fan of the Star Wars Saga, the comic contribution to what has come to be known as the Star Wars "Expanded Universe" has always had a special appeal for me. With the Star Wars Omnibus collection series, Dark Horse Comics is offering fans a great opportunity to explore their vast published works in that

beloved galaxy "far, far away." The Star Wars Omnibus "Menace Revealed" is an extra special volume in the series because, in its 480 pages, this book contains a wealth of hard to find adventures that take place before, during and after the events of the Prequel Trilogy films, "The Phantom Menace," and "Attack of the Clones." The contents of this omnibus features stories showcasing a myriad cast from the Saga, from those known in the films like Anakin Skywalker, Obi-Wan Kenobi, and Jedi Masters Yoda and Mace Windu, to characters given more depth in the "Expanded Universe," like the deadly bounty hunter Aurra Sing, who is featured on the book's cover in an illustration by Jon Foster. The albino assassin is featured in two tales, "The Hunt for Aurra Sing" and "The Bounty Hunters: Aurra Sing," and much of her history is revealed, including her link to the Jedi Order. Another famous or infamous bounty hunter, Jango Fett, shares two adventures in the book with another gun-for-hire, Zam Wesell, that show them in action before their movie debut in "Attack of the Clones." The Jedi Master and apprentice duo of Obi-Wan Kenobi and Anakin Skywalker share heroics in "Jedi Quest" and "Practice Makes Perfect" and are featured in two other stories as well. In a galaxy as vast as the Star Wars galaxy, not even George Lucas' epic films could showcase all the tales its stars shine on and this omnibus also shines the light on characters never seen in the films. "Starcrash" tells a tale of "newly christened Jedi Knight" Yoshi Raph-Elan and his adventure with a beautiful princess. "Starfighter Crossbones" relates the exploits of the daring space pirate Captain Nym, a character introduced in a LucasArts video game. A surprise treat for me was the discovery of a three paged tale of the Jedi Master Quinlan Voss called "Heart of Fire," created by John Ostrander and Jan Duursema. This writer/artist team have created a growing library of great Star Wars comics which continue with their collaboration on the "Star Wars Legacy" series. This Star Wars Omnibus contains all the above and more. For Star Wars fans like myself and for fans of grand, entertaining comics, this book comes highly recommended. 0 of 0 people found the following review helpful. Must have! By Blaze You gotta have this if you collect omnibuses! 0 of 0 people found the following review helpful. Good Art, Decent Stories By J. Marts Overall, the art was great and the stories were quite decent and mostly entertaining. Some didn't capture my interest and others (like Aurra Sing's) went too fast for me to follow. The stories take place between episodes 1 and 3.

This is Dark Horse's largest omnibus of never-before-collected and out-of-print Star Wars stories. Included here are one-shot adventures, short story arcs, specialty issues, and early Dark Horse Extra comic strips! All of these tales take place after Episode I: The Phantom Menace, and lead up to Episode II: Attack of the Clones. In Jedi Quest, Anakin Skywalker will work to overcome his fears while on a mission to protect a freighter from pirates. Starfighter: Crossbones pits pirate against pirate, featuring the intimidating Captain Nym. Included in this volume are The Hunt for Aurra Sing and The Bounty Hunters: Aurra Sing, plus many more stories which have not seen print in nearly a decade!
