fine series. It's set before *The Force Awakens*, but it does fill in some details about the new Star Wars trilogy. For example, you learn more about Lor San Tekka (who dies by Kylo Ren's saber at the start of TFA). And, you get to know more about each of the pilots in Black Squadron\*--the X-Wing squadron in TFA that took out Starkiller base. I wasn't that crazy about Poe when I first saw TFA. It took me a while to warm up to him. This book helps a lot because the writers emulate Oscar Isaac's performance of the character perfectly. You can actually hear the actor speaking the character's lines as you read the book. And, we continue with a new baddie character that I think is just awesome: Terex. He was a stormtrooper during the Galactic Empire era. After the Empire's fall, he shed his white armor and went on the fringe, becoming a crime lord. When he heard about the rise of the First Order, it was like a wounded soul had been healed. His original passions as a stormtrooper were re-ignited, and his hope that the Empire's defeat could be reversed took him over, head to foot. He joined the First Order Security Bureau, eventually finding Poe Dameron and his Black Squadron in his sights. The guy uses the Carrion Spike\*\* for his personal vessel! Highly recommended.\* Though it's not necessary to read, there is more information about Poe's parents and one of the Black Squadron pilots in the *Star Wars: Shattered Empire* collection.\*\* The Carrion Spike was Governor Tarkin's personal vessel, first mentioned in James Luceno's novel, *STAR WARS - TARKIN*. 0 of 0 people found the following review helpful.
