Various : Star Wars Tales, Vol. 2 before purchasing it in order to gage whether or not it would be worth my time, and all praised Star Wars Tales, Vol. 2:

Some of the characters are major players while others played a smaller role in the main story. Likewise the artwork and style have wide ranges.As happens with most collections that have a lot of different contributors, fans will almost always find something to like. Unfortunately, they will probably

also find something that isn't to their taste as well. For me, I find more stories to my liking than to my dislike. The artwork for the most part was okay with a couple of really nice works and a few that didn't appeal to me. Overall, a nice addition to the Star Wars collection. 0 of 0 people found the following review helpful. Not a bad way to spend a flight all in all. By Amazing Customer It has tales, and they are from Star Wars. For the penny a page I got them on sale I'm satisfied. They're not exactly chronologically in order, (Tales 2 has a prequel C3PO to Tales 1's intro for example, but go ahead and get the first one. If you like it, get the next - lather rinse repeat until you've had enough. These are not as good as the best of modern graphic novels, not in terms of artwork or writing, but nostalgia can make up for a lot. 0 of 0 people found the following review helpful. Five Stars By Customer Leo Great book for Star Wars followers!

Collecting issues #5 through #8 of the quarterly anthology smash sensation, Star Wars Tales Volume 2 includes thrilling stories featuring Darth Vader, Luke Skywalker, Han Solo, Lando Calrissian, the Jedi Council, Yoda, C-3PO, and a cast of thousands! Tales has explored every corner of the Star Wars galaxy from the darkest depths, to the wackiest extremes chronicled by the finest creators in comics. Star Wars Tales Volume 2 is sure to delight fans both young and old!

From School Library Journal Adult/High School-These 21 stories are for dedicated fans and casual readers alike, although knowledgeable teens will get the most out of the jokes and asides. The tales vary as widely as the styles in which they are illustrated, and the lavish use of color will definitely attract attention. Readers well versed in the minutiae of the Star Wars universe will be thrilled to discover something about Boba Fett's personal life or a lesson once taught to young Anakin and remembered much later by Darth Vader. Those conversant in pop culture will be amused by the encounter between Jedi Micah Giiet and a fearsome kitchen droid called MREM-02 (pronounced Moree-Mohtwo). Both the Max Rebo Band and smuggler Vilmarh Grahrk have returned from Volume 1 in new adventures. There are several appearances of favorite characters like R2-D2 and C-3PO and there is even a bedtime story for young Anakin Solo featuring the adventures of his Uncle Luke's hand. Although some of the stories are stronger than others, this is still an entertaining collection. Purchase as interest demands.
