Various : Star Wars Tales, Vol. 3 before purchasing it in order to gage whether or not it would be worth my time, and all praised Star Wars Tales, Vol. 3:

3 of 3 people found the following review helpful. More TalesBy Guy with BeardThis is a collection of short stories set in various times throughout the Star Wars universe. They range from serious to silly. The artwork also has a wide range of styles. As can be expected with stories that were intended as fillers, some are good and others are not so good. With all of this mixing of different elements, any Star Wars fan should be able to find something they like. On the

other hand, there will almost always be something that doesn't come off as favorable. Therefore, I am going with a rating of three stars. It is good, just not great or horrible. 0 of 0 people found the following review helpful. It's OkBy sharkshadow96This collection of short stories is ok, the dual between Darth's Vader and Maul could have been much better thou, 1 of 1 people found the following review helpful. All in all, not a bad way to spend a flight. By Amazing CustomerIt has tales, and they are from Star Wars. For the penny a page I got them on sale I'm satisfied. They're not exactly chronologically in order, (Tales 2 has a prequel C3PO to Tales 1's intro for example, but go ahead and get the first one. If you like it, get the next - lather rinse repeat until you've had enough. All in all, not a bad way to spend a flight. These are not as good as the best of modern graphic novels, not in terms of artwork or writing, but nostalgia can make up for a lot.
