More for a younger crowdBy ThomasI gave this a four star because the story was a pretty good one and it has the same clone wars ideals behind the main plot. There has been much better clone wars stories

and comics, including the art, but it was still a good read for me overall. Personally I think this would have been more for early readers yet the moral is a universal one and every age group can learn from this story.0 of 0 people found the following review helpful. Four StarsBy Manuel MorenoHas a great story but weighed by the fact it was geared for kids

Spearheading a bold, covert mission intended to bring an end to the fighting on a war-torn world, a platoon of Clone Troopers find their plans undone by faulty intelligence and bad luck, and themselves stranded deep inside hostile territory. With no choice but to see their flawed mission through to its end, the ragged soldiers make their final push toward their target, unaware that their victory could spell disaster for the Republic!
