Marvel Comics : Star Wars: The Original Marvel Years Omnibus Volume 2 before purchasing it in order to gage whether or not it would be worth my time, and all praised Star Wars: The Original Marvel Years Omnibus Volume 2:

2 of 2 people found the following review helpful. the original panels as found in the comics that I grew up reading and loving had finer lines, more of a color spectrum and a ...By Katrina WoitenOkay, here is my peeve: the original panels as found in the comics that I grew up reading and loving had finer lines, more of a color spectrum and a far better presentation. These reprints are a let down for those of us who read the original versions in the 1980's, I simply cannot

understand why with today's advanced printing technology we can't reproduce art that was rendered over 30 years ago with the same original detail? I am not an expert on printing by any means so perhaps someone in publishing would read this review and simply shake their head (gotta be a cost issue). I paid around 40 for this shipped and will keep it, had I paid the cover price of 125.00 I would certainly have sent it back. One last thing: perhaps you were born AFTER these comics came out and have never seen/read them? well you are really in for a treat. Great stories here, simply awesome story arcs (with some lame ones here and there too) The Luke/Shira love story being my favorite (hey, I'm a girl!) the Tarkin (weapon) story arc is good enough that Disney should seriously consider it for a film adaptation. So buy it if you did not read or recall the original art but beware if you expect the art to even come close to the originals.3 of 3 people found the following review helpful. You Can Get It All But Should you? Do Or Do NotBy thirtwinMarvels spin off inspired by the first three movies- printed well and in color but really only for super fans of the franchise or people interested in graphic art from this time period- on the good side the complete run has been printed in three volumes; but if you have a large want list of other books you might want to try those first. These stories will make you smile if only because of the way a lot of them show their age. The art is well done but some of what is done with the characters seems silly and of course It isn't 'cannon for the fans of the films and novels. But if you want to see Marvels complete take on the story and characters it's available.1 of 1 people found the following review helpful. 'Omnibus' is one of the best words in the English languageBy Michael K. Harrison'Omnibus' is one of the best words in the English language, as this volume proves. Exquisitely produced, it appears to be recolored but staying completely true in every regard to the original comic releases. It's a hefty volume and printed on high quality paper. This particular seller managed to package it sufficiently so that it received absolutely no damage during transit, a seemingly rare occurrence when ordering books through the mail. Could not recommend this volume or this seller more highly.

The very first Star Wars comic-book series continues! After the events of Episode V - The Empire Strikes Back, loveable rogue Han Solo is lost, frozen in carbonite. But as the search for Solo begins, Imperial Forces and other troubles keep getting in the way. Princess Leia clashes with Darth Vader! Luke Skywalker goes on trial for treason! C-3PO and R2-D2 face danger on a droid moon! Lando Calrissian finds Cloud City deserted! If the Crimson Forever doesn't get the Rebels, maybe the new Imperial super-weapon will! And a new member joins the gang, with a crush on a certain handsome Jedi! Meanwhile, the discovery of a gold statue of Han reveals a hidden story from his and Chewbacca's past. And who are the Hoojibs? It's Star Wars in the Mighty Marvel Manner!
