**John Jackson Miller, Mick Harrison : Star Wars: Vector Volume 1** before purchasing it in order to gage whether or not it would be worth my time, and all praised Star Wars: Vector Volume 1:

1 of 1 people found the following review helpful. a double feature book for two different star wars seriesBy TookieVector is a book that contains both volume 5 of Knights of the Old Republic and volume 3 of Dark Times. This confused me at first, thinking to myself "Great, I started both of these series only to not find the 3rd and/or 5th volume!" I actually found out by searching for it on the Dark Horse website. Then I had to order it from an

independent company off of the site because I couldn't find this book anywhere, then I got frustrated when I received the book in terrible condition when I ordered it new! Although, all the pages were still there and I loved them all! I enjoy how Dark Horse combined both volumes into one book. They had the idea of creating a story that started in the old republic era and continued it 4,000 some odd years later during the empire era! The story is good but I think the art fell short compared to both previous series. I give vector an even 4/5 stars. 1 of 1 people found the following review helpful. Knights of the Old Republic Vol. 5 + Crossover By J.C. Weyand Vector is a crossover series that spans 4 different comic books - the 1st in the Knights of the Old Republic Series. Chronologically this is actually KOTR Vol. 5 Spectacular installment of the KOTR series with big implications for Vol. 6. Also a great setup for the Crossover comics. It truly is one contained story in the KOTR universe that makes sense spanning all the way to the Legacy series. The 2nd half of the book (Ch. 2) is where the character from KOTR meets Darth Vader... a little silly but still cool. Be sure and get Vector Vol. 2, as Ch. 4 has an AMAZING payoff to the series and introduced me to the phenomenal Legacy comics. 1 of 1 people found the following review helpful. Star Wars Vector Volume 1 comic review By Mortal Frailty I only purchased this volume because it had Part 3 of the Dark Times volume within it, but the overall vector storyline (that begins in the Old Republic, continues during the Dark Times era, returns in the classic trilogy era, and then completes in the New Republic era) is pretty good as well. The Dark Times series picks up immediately after the Republic series comics by Dark Horse where the Jedi are exterminated and hunted after Order 66. I really loved that gritty and dark comic series based on my favorite part of Star Wars takes: the Clone Wars. That series far surpasses both of the cartoon series' and movie's attempts at visualizing the Clone Wars. This volume only contains the first 2 parts of the Vector storyline (so 1 volume of Old Republic comics and 1 volume of Dark Times comics- #3). I was confused, at first, as to why there was no Dark Times volume 3; I found out before I ordered this one, so I hope that helps answer some confusion about the series. God bless.

In Chapter 1: Knights of the Old Republic Volume 5, a terrible vision reaching far into the future alerts the secret Jedi Covenant to the importance of Taris, and they activate operative Celeste Morne. She encounters a monstrous threat, an ancient Sith artifact, an army of Mandalorians, and Zayne Carrick, the Padawan accused of killing his fellow students! Then, over 4,000 years into the future, Chapter 2 of "Vector" - Volume 3 of Dark Time - crosses into the period immediately following the events in Revenge of the Sith. The unfortunate misfit crew of the Uhumele is thrown into the path of Darth Vader and the now-ancient Jedi Master Celeste! Both Sith and smugglers will not leave this meeting without grave consequences . . .

About the Author John Jackson Miller is the author of the national best-selling novel, Star Wars: Knight Errant, nine Star Wars: Knights of the Old Republic graphic novels, and the Star Wars: Lost Tribe of the Sith eBook series. His comics work includes writing for Iron Man, Mass Effect, Bart Simpson, and Indiana Jones. Author of several books about comic-book history, he also runs the research website, The Comics Chronicles. Mick Harrison is the author of the acclaimed comics series Star Wars: Dark Times from Dark Horse Comics.
