others fills in extra detail around the novels, but the art style was just too weird for me to enjoy or even follow and took me a few different tries to read, so i mainly just read dialogue the last half of the book. I wish they would stick with a style, and not this one... Also since the relaunch of comics starting with Eddie these are all only available in paperback. PetroneThis is a fantastic story written by Stephen King and I love the ability to read it in comic form. The characters are so engaging and vivid, the artwork only adds to the tale. The book did arrive with a creased binding, but I didn't lower the star rating for that. I would only recommend that, because it is a soft covered book, it isn't sent in an envelope. It would be better packaged in a more rigid container. I look forward to the next addition.0 of 0 people found the following review helpful.
