Beautiful artwork too.Great quality binding and cover, but the gold lettering on the hardcover is a little off center. It's a shame because the hardcover is otherwise beautiful, I wish I could un-notice it.0 of 0 people found the following review helpful. Absolutely devine.By PipelineAn excellent book to comic

It all begins here: the epic apocalyptic battle between good and evil. On a secret army base in the Californian desert, something has gone horribly, terribly wrong. Something will send Charlie Campion, his wife and daughter fleeing in the middle of the night. Unfortunately for the Campion family, and the rest of America, they are unaware that all three of them are carrying a deadly cargo: a virus that will spread from person to person like wildfire, triggering a massive wave of disease and death, prefacing humanity's last stand. Collects The Stand: Captain Trips #1-5.
