Rick Remender : Strange Girl, Vol. 4: Golden Lights before purchasing it in order to gage whether or not it would be worth my time, and all praised Strange Girl, Vol. 4: Golden Lights:

0 of 0 people found the following review helpful. The end of the world as we know itBy Kid KyotoStrange Girl certainly has a lot of courage for a comic series. The setting is a world after God has called the righteous to heaven and demons hunt the remainder. Our heroine and her friends (a soldier, a lecherous demon and a devil girl) set out to find the last gate to heaven and sneak in. Issues of theology, fate, free will and fundamental questions about good and evil naturally take center stage.In this final volume the quest ends and our heroine has a chance to confront God himself about the world he made. And suggest how he could make everything right.The ending is not what you'd expect.Strange Girl had its ups and downs but all in all it was a fairly satisfying series with an interesting premise. If you like the earlier volumes you'll like this one.0 of 0 people found the following review helpful. Five StarsBy felipeThis was great thank you

The critically-applauded series comes to it's heart wenching conclusion! With the fate of existance on the line Bethany must look deep into the cell of her heart and choose between her ideology and eternal reward. Everyone gets his or her hearts desire... and everyone dies! Features art from the creator of The Portent, which is currently in development as a

feature film!
