**David Lapham : Stray Bullets Volume 6: Killers (Stray Bullets Tp (Image))** before purchasing it in order to gage whether or not it would be worth my time, and all praised Stray Bullets Volume 6: Killers (Stray Bullets Tp (Image)):

0 of 0 people found the following review helpful. Still great. The series maybe doesn't feel quite as fresh ...By InkpoolStill great. The series maybe doesn't feel quite as fresh and innovative as it did back in the 90's, but the characters and well paced storytelling still hold up. Another solid arc in my all time favorite comic book series.1 of 1 people found the following review helpful. "Mom and dad made some cool s\*\*\*."By D. IversAfter nearly a decade

without any new issues of Stray Bullets, the acclaimed "suburban noir" series came back in 2014 without missing a beat. Writer/artist David Lapham made the choice to release issue #41 (wrapping up the previous story arc) and Killers #1 on the same day. As of this review, the best way to get caught up is to buy the Stray Bullets: Uber Alles Edition, which collects everything up until Killers. Image is slowly releasing individual trade paperbacks of the series, but you might as well get it all in one go. That being said, one of the best parts of SB is that each issue tells a self-contained story, and each arc can be read on its own. Having just re-read Killers to write this review, I can confidently say that while it may have "Volume 6" on the cover, it can be read and enjoyed by itself. Of course the reader will benefit from reading the larger narrative, but don't let that stop you from diving into this Eisner award winning series. Killers introduces us to Eli Goldberg, and much like other innocent characters in the series, Eli sees something he shouldn't have and the consequences are disastrous. Stray Bullets as a whole is the story of Virginia Applejack, but the narrative arc of Killers follows Eli and his exposure to the violence that has been surrounding Virginia since she was a child. It isn't all dark and moody though; Eli and Virginia become friends and lovers, we get to meet Boogerman and Virginia's (non-crazy) aunt, the Finger Man returns, and Virginia's psycho-galactic criminal alter-ego Amy Racecar comes back in issue #5. The extras in the back of the book contain notes and rough sketches/page layouts and we get to see how the character of Eli evolved, with some nice insights into Lapham's creative process with his editor/producer/wife Maria. Stray Bullets: Killers was a long time coming. I am extremely envious of anyone coming to these stories for the first time. A new reader has nearly 50 issues of stellar material to enjoy, with more to come. 0 of 0 people found the following review helpful. ... up almost right after volume 5 ends and it's like David Lapham never left all those years. By Floppies This picks up almost right after volume 5 ends and it's like David Lapham never left all those years. Virginia Applejack is my favorite comic chapter bar none. She's just so well developed over the years and this volume is no different. Not gonna spoil the story, if you liked Stray Bullets before its infamous hiatus then you need this book. If you never read it before, this is as good a place to start as any. "He lie" had me laughing out loud.

A little boy learns too late that running your mouth can get you run over. A young babysitter gets in way over her head when she's hired to sit by a dangerous man with a strange request. A young couple's hopeful visit to the city turns anything but when they step into the middle of a mob turf war and watch more than just friends die. And a young man just trying to help his hustler cousin out of a bad spot instead becomes the ultimate killer. These are only some of the eight stories comprising Killers, the newest arc in the ongoing world of Stray Bullets. Each story stands on its own, but collectively they tell the twisted story of two teens Virginia and Eli both scarred by tragic childhood intersections with the Baltimore underworld, drawn together in the sleepy seaside town of Sandcastle, unable to escape their dark pasts....
