**Ken Siu-Chong : Street Fighter Classic Volume 1: Hadoken** before purchasing it in order to gage whether or not it would be worth my time, and all praised Street Fighter Classic Volume 1: Hadoken:

3 of 3 people found the following review helpful. The Best of the Street Fighter ComicsBy David SwanStreet Fighter Classic: Volume 1 is basically a retelling of the classic Street Fighter story from Street Fighter II the Animated Movie.

Ryu and Ken are travelling around trying to find information on the death of Master Gouken. M. Bison is trying to get more information on Ryu because of his sky high Chi while Guile and Chun Li trying to track down Shadowloo because both lost people they cared about thanks to Bison. To say this is just a retelling isnt really a criticism. As long as its done well and adds something new to the story Im cool with it and volume 1 does flesh things out a bit. In fact it basically combines the story of SF II and SF Alpha which focused on Akuma and the Dark Hadouken. The art here is a bit inconsistent, likely because there are a lot of artists involved, but overall its quite good. The story is boilerplate but I admit I was a little disappointed in many of the fights which were generally beatdowns. I know Vega is considered better than Honda but it would have been nice to see Handa get in at least one shot. The first actual back and forth fight was between Ken and Zangief and that was only because Ken was distracted. I own a handful of the paperback SF books and theyre quite nice when it comes to artwork but the binding is awful and even reading them carefully the pages ended up coming loose. I avoided rereading them just to prevent further damage and thats not a good place to be in. The hardcover books have no such issues. They are considerably larger in terms of physical size and page count. They use threaded binding so there should be no issues with pages falling out. The HC books are quite a bit more expensive but due to the fragility of the paperbacks for me its a no brainer. These are the best SF comics I have ever read bar none. 0 of 0 people found the following review helpful. Must Get! By cuervito Love it! 4 of 5 people found the following review helpful. Solid Book, but need to be more detail before buying it. By Dizzy This is honestly a good book. The only reason why I have to lower it one star is because it is the same book from the volume 1 through 6 that was on paper back. Except this have the bonus content from Volume 4 and content from from 1 and 2. If you have the paper back version and want to buy the hard cover, be very mindful that it is still the same story. Only that it have Volume 4 mix in with the chapters too make sense of the story of what going on. So there really is nothing new other that it larger and it a hard cover version.
