Chris Sarracini : Street Fighter Origins: Akuma before purchasing it in order to gauge whether or not it would be worth my time, and all praised Street Fighter Origins: Akuma:

0 of 0 people found the following review helpful. 1 flaw, but still worth it
By DemeI'm a huge fan of Akuma, so naturally, with the release of his origin, I became quite excited for this book. The story did not go into as much detail as I was expecting, but it is still a must have. The only flaw is that a key element was not held onto: the training of two individuals of opposite characteristics. In this book, the training is similar to a regular dojo with many students. The Street Fighter storyline has been very weak for a long time, and it disappoints me that a cannon element was changed for the origin of a character that I hold so much favor for. Despite this, the book is a must have for the followers of Akuma.

By Akuma2kI've been a fan of Akuma since Streetfighter Alpha and when i read the book it wasn't what I thought it would be

concerning the origin of when the use of the raging demon technique first began or if master goutetsu ever used the technique himself etc....and the relationship between akuma and his brother gouken wasn't really detailed and left some questions unanswered...overall the story is okay, just didn't "wow" me like thought it would.0 of 0 people found the following review helpful. A tale of revenge and the choices we make..By ChristianI've always wondered about Akuma's origins. Reading this was pretty much everything I sought out. I think this would make an amazing screen play if Capcom were to ever give fans a truthful Street Fighter movie. Another reader mentioned that he wished it were longer and I couldn't agree more. It's a good read and I'll probably be re-reading this over and over again.

He is the world's most feared martial artist, mentioned only in whispers. Few have dared to challenge him, and even fewer have survived to speak of the nightmare. He is Akuma Master of the Fist, wielder of the Dark Hado. But he was not always trapped on the path of chaos. Street Fighter Origins: Akuma reveals the secrets of this dark figure's past for the first time, and shows how a frustrated young man grew into a mad demon.
