**John Ostrander : Suicide Squad Vol. 5: Apokolips Now** before purchasing it in order to gage whether or not it would be worth my time, and all praised Suicide Squad Vol. 5: Apokolips Now:

1 of 1 people found the following review helpful. A good resolution to a few charactersBy Brian ReavesI can't rate this as the best of the series so far, but there are a few significant events that make it worth reading. Two major characters die this time out (letting the title live up to its name). Part of the team (including Waller) is taken to Apokolips so Darkseid and Granny Goodness can have an offering. The rest of the team has to find a way there to save them (with

help from a Kirby-era guest star that was a nice touch). The ensuing battle is a good one, with Waller taking on GG at one point. The final two stories of the book are more aftermath type stories, bringing the collection to a quiet close. The collection is good. It's not the strongest of the series but it does bring to a conclusion the "Duchess" story line that has been interlaced throughout the previous two collections. It also gives a final resolution to Shade's story as well with a satisfactory ending. I wouldn't call this essential reading for the series, but it's good. 0 of 0 people found the following review helpful. an '80's comic espionage enjoyment By Robert S. Cummins looking forward to rereading this. Loved the Suicide Squad from the 80's. Never missed and issue.

**THE WALL HAS FALLEN** Amanda Waller has lost her iron grip on the Suicide Squad, pushed aside in favor of a new commander. While she lays plans to take back Task Force X, a supernatural secret society is quietly moving in for the kill. But an even more powerful enemy awaits and its an enemy within. A traitor in the ranks is scheming to use the Squad as cannon fodder in a bloody power struggle. And the battle wont take place in the war-torn Middle East, the shadowy streets of Gotham City or anywhere else on Earth. Its happening someplace even deadlier, even darker. **APOKOLIPS**. Now the home of Darkseid, the embodiment of all evil, will be the scene of the greatest fight the Squad has ever faced. The full fury of his most merciless minions will be unleashed against Waller and her team including Deadshot, Captain Boomerang, Poison Ivy and more. And by the time its all over, the Suicide Squad will live up to its name. Collecting the classic storyline by writers John Ostrander and Kim Yale and a squad of talented artists including John K. Snyder III, Luke McDonnell, Geof Isherwood and Grant Miehm, **SUICIDE SQUAD VOL. 5: APOKOLIPS NOW** takes the DC Universes favorite twisted team to the most dangerous destination yet! Includes **SUICIDE SQUAD #31-39**.

**About the Author** John Ostrander is a comics writer who co-created the science fiction series Grimjack with artist Timothy Truman. With his late wife, Kim Yale, he wrote DC's Suicide Squad and Martian Manhunter. With artist Tom Mandrake, he wrote a lengthy run of DC's The Spectre. Ostrander has also written for Marvel Comics and Warp Graphics' Elfquest series.
