Jeff Lemire : Superboy Vol. 1: Smallville Attacks before purchasing it in order to gage whether or not it would be worth my time, and all praised Superboy Vol. 1: Smallville Attacks:

2 of 2 people found the following review helpful. Essential Superboy readBy Joe IconicJeff Lemire hits on all my favorite levels of this story. This is pre-52 Superboy at his best. Smallville Attacks pays homage to many Silver Age themes, and does it well. Krypto, a race with Kid Flash... there is so much fan service. It was nice to see Superboy's (and Tim Drake/Red Robin, Cassie/Wonder Girl) adjustment with coming back from the dead. His supporting cast was a key element of enjoyment. There is a young Lex analogy, and the potential for Superboy to have different results with a young genius friend. There is a Legionaire's analogy, although his future is less than utopic (what future story is not dystopia nowadays, though?). The relationship with the attractive niece of Lex Luther and trying to figure out if kissing cousins counts for clones is amusing and well-told. I highly recommend this trade for anyone who enjoyed (and misses) the pre-52 "Young Justice" generation.0 of 0 people found the following review helpful. Five StarsBy

Shawn Y. Great collection for any fan of Conner! 0 of 0 people found the following review helpful. The First Great Superboy (Kon-el) Book! By David Keith This is a perfect graphic novel. I can see why it was nominated for the Eisner Award for Best Series. If you're a fan of DC Comics, you really must read this one. Now that I've read it; I'm surprised that this Superboy was rebooted so completely with the "New 52". DC had a real good thing going on with this title. I hope the new series can live up to this collection. This Superboy has been around since the Death of Superman storyline some years back. This is not the adventures of Superman as a youngster. He's Kon-el; a cloned mix of Superman/Lex Luthor's DNA. Yes, he's got 2 Dad's :) What makes this book so good is the writing of course. It's just marvelous. Do yourself a favor and buy this book. It's great comic book reading.

Superboy is back in a brand-new ongoing series! Join Jeff Lemire (SWEET TOOTH) and amazing up-and-coming artist Pier Gallo as they take Superboy on a journey to a side of Smallville not even Superman knows about! What mysteries lurk beneath the surface of this all-American town - and what are their direct ties to Superboy? The start of the next great DC Universe epic begins
