Most humane superman everBy Georchio AlanedoI wouldn't consider myself an expert on comics (nor I'm interested in becoming one) but I do know the kind of things I really like and for instance John Byrne's version of superman is in my (humble) opinion the most humane one I have ever seen; I mean he is powerful and stuff but he is not a semi-god with unlimited powers capable of breaking all physics laws (time barrier, breathing in water and in space, unlimited strength etc, etc and etc) like previous and most current versions of the character which in my mind makes the character more real (as far as it can be); another thing that I like of this version of Superman is the stories, they are really easy to understand and follow and most important with a

solid base and foundation that will prevent them from becoming cheeze and predictable. I have to say that I love reading stories from Superman in the seventies and early eighties but nothing compared to the stories written after "The Crisis" back in 85. I can hardly wait to read the next paperback on this series.0 of 0 people found the following review helpful. Five StarsBy CoolGreat0 of 0 people found the following review helpful.
