Peter Milligan : Tank Girl: The Odyssey (Remastered Edition) (Tank Girl (Unnumbered)) before purchasing it in order to gage whether or not it would be worth my time, and all praised Tank Girl: The Odyssey (Remastered Edition) (Tank Girl (Unnumbered)):

6 of 6 people found the following review helpful. Tank Girl gets her grubby paws on the Odyssey...By jaxxThis comic is essentially a "Tank Girl" version of the Odyssey. We start out with Tank Girl having been at a party for years at "Troy's house," when Booga (kangaroo bf) is given an offer by a movie agent to be made a "much bigger star than Tank Girl." Meanwhile, Tank Girl assembles a crew (various cast regulars and cameos by the creators) to get back in

time to slaughter Booga's suitor and must overcome obstacles such as Tankie's dead mother, a hotel that only accepts payments in eyeballs, a goth-rock band called "The Sirens" and more. What I think is admirable about this is that Alan Martin, co-creator and usual writer of Tank Girl, stepped out and was replaced with Peter Milligan for this story. Peter Milligan, with fairly limited knowledge of Tank Girl, managed to capture the essence of Tank Girl and also wove an interesting "Tank Girl/punk rock/bogjoke" interpretation of the Odyssey. This book, like the other remastered editions I've reviewed, has an introduction from the author (a different author this time) as well as an additional comic about Tank girl and Booga camping out in Arlington National Cemetery. The story for Tank Girl Odyssey isn't too bad, although there are times when you can almost tell that it's being written by someone else (mainly because it doesn't end with Alan Martin's usual "then she takes acid and blows up the planet" type of ending). As for the content, it's the usual immature substance abuse, drinking, toilet humor, femme fatale act you'd expect from Tank Girl. The Odyssey reference is also pretty interesting for those of you who aren't uncultured swine. 3 of 3 people found the following review helpful. Tank Girl: The Odyssey By Customer I'm really glad I got this book. It's funny and the art is good and it kinda does follow "The Odyssey". It was made after the horrible movie, so there's cracks in the story about it. The staff is included as characters (poor Jamie). I guess I should add that it's not for small children. But, if you're getting a "Tank Girl" you probably know that already. For me, a 43 yr old geek girl, this was the perfect thing to unwind and lighten up after stressful days. BLOOD AND SNOT!! 0 of 0 people found the following review helpful. ummm By Nikki Farris again, i love tank girl and all her crazy antics which is why i rate this so high. but fusing tank girl and the odyssey was almost as painful as reading apocalypse. i love the fact this still has the original illustrator, but you can't replace original tank girl stories

A demented take on Homers classical Greek epic, The Odyssey, brought to you by the twisted genius of Peter Milligan (X-Statix) and Tank Girl co-creator and artist, Jamie Hewlett (Gorillaz). Booga, Tank Girls husband, is being wooed by Hollywood agents but Tank Girl is missing and his resolve is crumbling, fast! Tele, their TV-headed son, sets out on a mercy dash to find his mother... in the process triggering a chain of events that will see Tank Girl, not only, face death itself, the siren call of Goth rock and a cyclopean hotel proprietor, but also a host of other scenes and characters based on The Odyssey... give or take the odd ahem idiosyncratic Tank Girl twist. With a new introduction from Alan Martin.

Praise for Tank Girl: "Tank Girl took a blowtorch to Batman and kicked seven shades out of Superman... Sexy, psychedelic and spleen-splittingly funny." Maxim "Tank Girl... Destined to be next spring's candidate for collegiate cult status." Entertainment Weekly "Lara Croft could not have existed without Tank Girl" Icon "Frankly Tank Girl was MIA for too long and it's good to see her back" Blogcritics Magazine "As much of a wisecracker as she is woman warrior" New York Times Praise for Alan C. Martin: "Alan Martin has rather miraculously stepped right back into his groove with the character" Bad Librarianship About the Author Peter Milligan has written a dazzling variety of comics, including Shade, The Changing Man, Enigma and The Extremist. He is the current writer of Marvel's X-Statix. Jamie Hewlett has worked on a wide variety of comics projects, including Fireball and 2000 AD's Hewligans Haircut, and is now a household name owing to his design of the virtual pop group Gorillaz.
