Dave Garcia, Beth Mitchrone, Ken Mitchrone, Christy Marx, Larry Parr : Teenage Mutant Ninja Turtles Adventures Volume 1 before purchasing it in order to gauge whether or not it would be worth my time, and all praised Teenage Mutant Ninja Turtles Adventures Volume 1:

1 of 1 people found the following review helpful. Lacks the Same Depth, Character Growth, Action, and Robust Storylines of the Later TMNTA Issues By Stephen Arvidson In this compilation of re-released stories from the early 1990s, Teenage Mutant Ninja Turtles Adventures, Volume 1 collects the first four issues of the 72-issue Archie comic series, a pair of two-part tales adapting Season Two episodes of the classic cartoon series; namely, "Return of the Shredder" and eat your heart out, Richard Matheson! "The Incredible Shrinking Turtles." In an alternate dimension, evil

warlord Krang grants Oroku Saki, a.k.a. the Shredder, solitary passage to Earth so that he may exact vengeance upon the half-shelled heroes and their rodent sensei, Splinter. In his first scheme, the archvillain seizes control of a karate dojo and enlists the hard-faced students to commit a series of robberies in full turtle regalia, thereby discrediting the radical reptiles in the eyes of the media. In a further effort to draw out his rivals, the Shredder enlists mad inventor Baxter Stockman to reconfigure a drilling vehicle and abduct Splinter from his underground home. Naturally, Leonardo, Michelangelo, Donatello, and Raphael claim victory over the Shredder, but before they can catch a breath, an extraterrestrial craft swan-dives into Central Park. Before the alien pilot succumbs, he informs the Turtles that a powerful crystal dubbed the Eye of Sarnoth has broken into three fragments and has been scattered across the city; the first fragment falls into the hands of none other than you guessed it the Shredder, and he uses its power to shrink the reptilian quartet to pint-sized heroes. While this preliminary volume lacks the depth, character growth, action, and robust ongoing storylines for which the later issues of TMNT Adventures would be heralded, the artists behind these early stories succeed in capturing the likeness and spirit of the characters. On the other hand, both the campy dialogue and nondescript landscapes further underscore the artworks cartoonish essence. Alas, the plots themselves are riddled with forced comic relief, bizarre coincidences, and maddening contrivances. Yet, the characters often lampshade their situations, thereby relying more on the story's fundamental nature. In other words, the scriptwriters never intended for the story to be taken seriously; it is entertainment, pure and unadulterated, and sure to enrapt adolescent readers who aren't bothered by the shoddy 90s coloring (since IDW didn't bother remastering these antiquated issues) or nostalgia-minded thirty-somethings like myself. 3 of 3 people found the following review helpful. Glad to See it Re-Printed By BudB The "Teenage Mutant Ninja Turtles Adventures" was the comic published in the late 80s and 90s that was originally intended to be based off of the Turtles' Cartoon series, but took a storyline and life of its own. I can go on and on about this series - how it carried better continuity and depth than the actual cartoon, and how the storyline slowly matured with me as I grew from a child to a teen, but for now, let me just say that I read all of them as a child, and am extremely happy that they are re-releasing it. I hope (but doubt) they re-print the series all the way to its end, but as long as IDW is printing them, I will be purchasing. 0 of 0 people found the following review helpful. Great By Larry Hogue I love the turtles more than I did when I was a kid. Yes these stories were episode's on the cartoon series but it doesn't stop this from being a great trip down memory lane for a turtle lover. Highly recommended.

Classic animated TMNT action is collected here in this re-presentation of two fan-favorite cartoon adaptations! In both "The Return of Shredder Parts 1-2" and "The Incredible Shrinking Turtles Parts 1-2" read along as Shredder comes back to Earth from Dimension X and attempts to exact his revenge upon the hard-backed heroes.
